3 MONTH RETAINER

**DESIGNED TO DOMINATE**

Assets *deployed*. Attention *commanded*. Brand *elevated*.  
World *dominated*.

## IS THIS YOU?

- Your brand is **growing**
- You're **showing up** more than ever
- You've got **offers** to launch, **assets** to create, a **reputation** to maintain, a **vision** to pursue... and maybe even a **world** to **dominate**

So, with that 'to do' list **screaming** at you...  
**why** are you still doing the design **yourself?!?**

Design work is **eating** at your **time**, your **brain**, & your **spoons**

And if we're being **really honest**... it's probably not the **best use** of your **energy** anyway

That's how you end up **stuck** in DIY design hell, or **avoiding** design altogether (which, spoiler alert, does nothing for your visibility or credibility)

**So I present to you:**

**DESIGNED TO DOMINATE**

## 😎 DESIGNED TO DOMINATE 😎

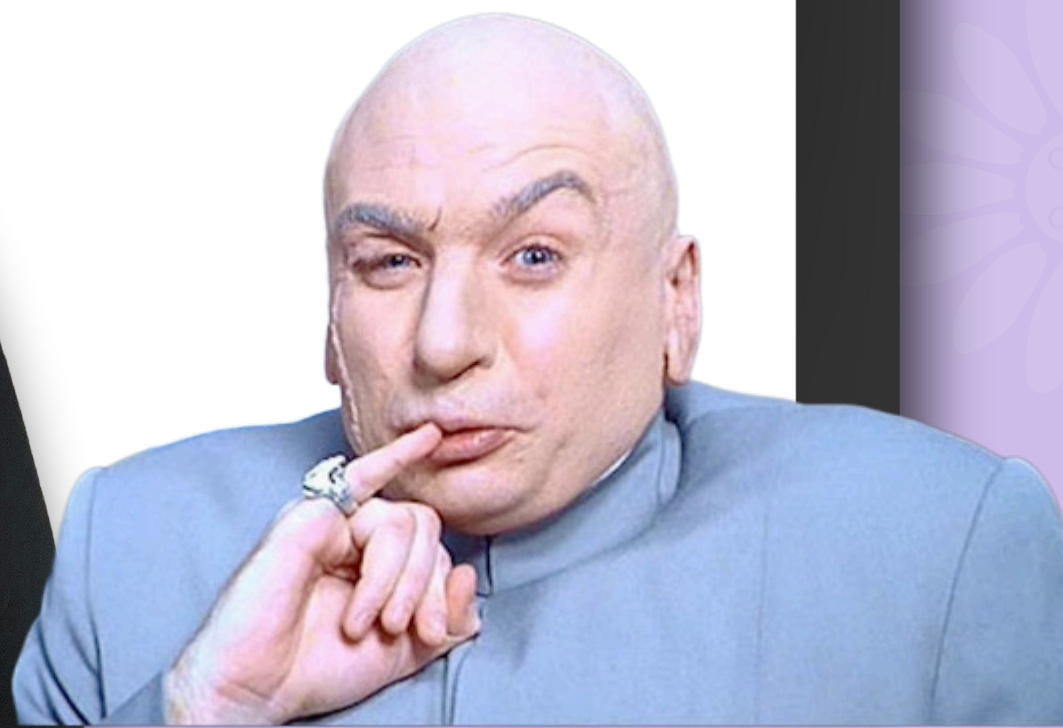

...is your **embedded** design brain (*it's me, hi*). Your in-house designer **without** the salary, the onboarding, or the employee **faff!**

**You send** the work. **I design** it.

Your brand shows up everywhere **flawlessly, polished & unmistakably you**

Leaving you free to focus on leading, growing, & quietly plotting biz domination from your desk chair...

**\*cue evil laugh\***

## IT'S FOR BIZ OWNERS WHO:

-  Need design support that goes **beyond** just social media posts
-  Understand that **quality** design is **important** to build & maintain **authority**
-  Know that outsourcing is their next **step** if they want to reach the next **level** in their business

**This is brand dominance without the burnout**

## HOW IT WORKS

### Order of execution:

- 1** **You** supply the asset **brief** (*incl final copy*)
- 2** **I** deliver visuals that are **polished, cohesive**, & perfectly **aligned** with your brand
- 3** **We** deploy your **beautimous, stress-free** designs & get *one step closer* to world **domination**

**No chaos. No micromanagement.  
Just all the design, expertly done for ya!**

**Design off your plate. Power in your hands**

## THIS IS FOR YOU IF:

-  You're a few years into business & your brand is showing up in more places than ever
-  You're launching, speaking, hosting, collaborating, or attending events & need assets that actually match your level of iconic
-  You're done DIY-ing design (*or quietly hating it*) & want it handled properly with outcomes that make you gasp
-  You care about consistency, quality, & how your brand is perceived
-  You want to send something off & just *\*know\** it'll come back looking better than anything you could imagine
-  You're ready to outsource design to a trusted partner, not a task-juggler
-  You want to feel like a boss b\*tch with an in-house designer, not a frazzled founder with a Canva account

Basically, you're ready for your brand to look as powerful as the business you're building

## THIS IS NOT FOR:

- ✿ “Unlimited everything” chaos (*we like sustainable domination, not burnout*)
- ✿ People still figuring out their brand identity (*if that’s you, you want ‘Ctrl-Alt-BRAND’ first*)
- ✿ Anyone who wants to micro-manage every pixel (*you want my expertise & your time back, don’t ya?*)
- ✿ Brands that don’t care how they show up in the world

If you want cheap, fast, & careless — this ain’t it

If you want professional, polished, and powerful —  
you’re in the right place!

## WHAT YOU ACTUALLY GET:

-  Your own in-house designer who gets you, your brand, your tone, & your standards
-  Brand consistency baked in
-  A set number of monthly design hours you can use however you want
-  Design for anything visual your business needs: social graphics, slides & decks, PDFs & client assets, launch graphics, banners, flyers, promo materials, templates, and more!
-  Visuals that are impactful, professional, on-brand & aligned with your vibe
-  Higher tiers = more hours = room for bigger, more complex, high-volume work or detailed assets
-  Work is prioritised together so nothing falls through the cracks & you know how your time's been spent
-  Calm, reliable, professional delivery (*no chasing, no stress spirals*)
-  Canva or Adobe Express delivery (*editable too, if you want it*) OR AI/EPS/PDF files if the asset is for print

Think of it as your **brand**, deployed **strategically**, while you **focus** on **client work & business growth**

Been nodding your head like the Churchill dog, so far?  
Then it's time to choose your level of domination

**It's giving:** The final boss tier. Your fully activated design authority, deploying flawless visuals while you focus on leading, scaling, & being unstoppable

## IMPORTANT (BUT FRIENDLY) BOUNDARIES:

Because great design needs clarity, not chaos

- ✿ Whilst the type of deliverables are unlimited, my time is not (*each tier comes with a set number of monthly hours*)
- ✿ Work is completed within available hours, prioritised together so nothing gets missed
- ✿ Turnaround times depend on scope & current workload (*urgent ≠ guaranteed, but we'll always be honest*)
- ✿ Unused hours don't roll over (*this keeps the retainer fair, sustainable, and high-quality for everyone*)

## ACCESSIBILITY & INCLUSIVITY (ALWAYS):

BeBeau retainers are built for real humans with real brains & bodies, not productivity robots

### That means:

-  Clear processes & expectations (*no guessing, no pressure*)
-  Neuro-friendly communication (*written, async, structured*)
-  Flexible pacing where possible (*no hustle, no urgency theatre*)
-  Compassionate, collaborative working (*not performative “professionalism”*)
-  A designer (& *biz bestie*) who understands busy brains, energy levels, and that life happens

You don't need to mask, over-explain, or apologise here... you just bring the brief, I'll handle the design

**SO...**

→ Stop *juggling* launches, events, decks, socials, banners, PDFs... and still trying to *DIY* your design

→ Stop *wasting* brainpower, spoons, & energy on assets that don't look as good as your business *actually* is

→ And **start dominating**

Because what you *really need* is design off your plate, *executed* like *pro*, every time — across *everything* your brand touches

This retainer is how you *show up* everywhere, on-brand, & effortlessly, *without overthinking, over-editing, or stressing* about consistency (*that'll be my job instead aha*)

With **Designed to Dominate**, your assets become your *brand's army*... polished, professional, & unmistakably *you*, ready to *deploy* into the world at your *command*

Your designs? *Done for you*

Your brand? *Everywhere*

World? *Dominated*
